EXPLANATION OF CHANGES IN COVERAGE AND OF THE SAMPLING PROCEDURE FOR ESTIMATING IMPORTS IN SHIPMENTS INDIVIDUALLY VALUED $250 OR LESS

A. Increase in Coverage of Import Totals by Inclusion of Informal Entries.

Effective January 1954 the coverage of the United States import statistics has been broadened to include, on a sample basis, imports individually valued $250 or less reported on *informal* entries, which total approximately $4 million per month. Imports on informal entries have not been included in the import statistics prior to January 1954. As explained below, they are being included, effective with January 1954 in the over-all and summary totals only, and are *not* included in the statistics compiled for the individual Schedule A commodity classifications.

B. Decrease in Coverage in Detailed Import Statistics.

Also effective with the January 1954 statistics, information on immediate consumption imports individually valued $250 or less reported on *formal* entries totaling approximately $4 million per month, is no longer included in the statistics for the individual Schedule A commodity classifications[1]. Like the imports valued $250 or less on *informal* entries, they are being included in the statistics on a sample basis, in the over-all and summary totals only. Thus the low-value imports which, according to sample studies made, have generally similar commodity distribution whether covered by formal or informal entries, are treated uniformly in the statistics.

C. Reasons for Changes and Explanation as to Methods Adopted.

The February 1954 issue of *Foreign Trade Statistics Notes* contains an explanation regarding the increase in the value limit from $100 to $250 for informal entries, effective September 1953, under the Customs Simplification Act; the consequent need for including information on imports covered by informal entries in the statistics; and the reasons why the changes described above were made as a result of this need.

D. The Estimating Procedure

For imports individually valued $250 or less for both formal and informal entries, a 5 percent sample is taken, data are compiled from the sample and multiplied by 20 to obtain the estimates included in the statistics. These estimates are included only in the following summary totals:

1. The over-all import total (shown at the end of this report, labeled Grand Total).
2. The country totals (not shown in this report, but published in FT 120 and FT 950).
3. The Customs district totals (not shown in this report, but published in FT 970).
4. The economic class totals (not shown in this report, but published in FT 930 and the *Quarterly Summary*).
5. The commodity group totals (shown at the end of each commodity group in this report).
6. The commodity subgroup totals (included in this report for the first time effective January 1954 in order that users may have ready access, as more fully explained below, to information on the undercounting in the individual Schedule A classifications in each subgroup resulting from the changed compiling procedure). The commodity subgroups are the groupings of commodities under the approximately 100 subheadings in Schedule A.

Information on imports individually valued $250 or less is excluded, as mentioned above, from the statistics for individual Schedule A commodity classifications, and from all statistics for cross-classifications such as commodity by country, country by Customs district, etc.

E. The Extent of Undercounting in the Import Statistics in This Report Resulting from Omission of imports $250 or less.

1. *Commodity subgroup totals (i.e., groupings of commodities):*

Since the calendar year total for shipments individually valued $250 or less is in the neighborhood of $95 million ($55 million on informal and $40 million on formal entries) and represents only about 1 percent of the value of all imports, the undercounting for all detailed figures taken as a whole is not great, but it is possible that a high degree of undercounting in individual detailed figures may result. Since the smallest commodity breakdown of the estimated information on shipments valued $250 or less has been published monthly on a subgroup basis only, the annual amount estimated for each subgroup is also being published in this report. As in the monthly issues of the report, the subgroup total figures have been shown immediately preceding the data for the first Schedule A commodity number in each subgroup as illustrated:[2]

Schedule A Number Commodity Description and Unit of Quantity		
Country of origin	Net quantity	Value (dollars)
MEAT PRODUCTS		
TOTAL	.....	162,656,103
SAMPLE	.....	1,048,440
OVER 250	.....	161,607,663
OVER 250 DATA SHOWN BELOW		
0018 300 BEEF, FRESH, CHILLED, OR FROZEN, BONE IN-POUND		
CANADA	2,749,905	819,454
MEXICO	1,578,165	281,512
DOM REP	1,658,030	480,431
N ZEAL	126,393	41,172
	6,112,493	1,622,569

The value of $162,656,103 shown for TOTAL, immediately below the commodity subgroup description MEAT PRODUCTS is the subgroup total, made up of the fully compiled shipments valued over $250 ($161,607,663) for the subgroup, plus the estimated value for shipments valued at $250 or less ($1,048,440).

The value of ($1,048,440) shown for sample is the amount which is estimated, on the basis of the sample, to have been imported in shipments valued at $250 or less for the subgroup.

[1] The terminology used in this statement, and in later references "imports valued $250 or less covered by formal entries" is not strictly accurate, but has been adopted for convenience. Full compilation procedures are being continued for warehouse withdrawals, regardless of value.

[2] A number of importations reported on informal entries (less than 2 percent of the total estimated value of formal and informal entry shipments valued $1-$250) cannot be classified in terms of commodity subgroup detail. These imports are shown separately, at the end of this report as "Other $1-$250 items" and are arbitrarily included in the total for the group 9 "Miscellaneous" commodities.

The value of $161,607,663 shown on the same line with OVER 250 is the total for the subgroup of the fully compiled data for shipments valued at over $250. This total is made up of the detailed statistics in the report shown on a Schedule A commodity by country of origin basis under the heading OVER 250 DATA SHOWN BELOW.

In addition to the presentation of subgroup sample data in the main body of this report, estimated values for formal and for informal entry shipments are shown separately in Appendix A at the end of this report.

On the basis of measures which indicate the degree of reliability to be attached to a specified value on two-chances out-of-three basis most of the subgroup value totals in this report in which the sample estimates are included have a limit of sampling variability of not greater than 5 percent. In all cases where the sampling variability is greater than 5 percent the figure is footnoted. In general, the variability of the subgroup value totals for the $1-$250 shipments alone is greater than 5 percent.

2. *Schedule A Commodity Totals*

Some indication of the undercounting on a seven-digit Schedule A commodity basis without regard to country, is published in Appendix B at the end of this report. (No measures have been made of the extent of undercounting on a commodity by country or other cross-classification basis.) The seven-digit Schedule A commodity information presented in the Appendix is based on the 5 percent sample of $1-$250 shipments filed on *formal* entries and supplements the commodity data shown in the body of Report No. FT 110 on fully compiled over $250 shipments. In the event a commodity is not listed separately in the Appendix it means that there were no formal entry shipments included in the sample although this does not mean that no $1-$250 formal entry shipments were made. If formal entry shipments were made they probably would have amounted to no more than a few thousand dollars.

For each Schedule A commodity in the Appendix a rough measure of the extent of the undercounting can be determined from the information provided in terms of the following figures:

(a) The fully compiled over $250 total dollar value.

(b) The estimated dollar value of $250 and under shipments filed on formal entries, by seven-digit Schedule A commodity classifications.

(c) The estimated dollar value of the $250 and under shipments filed on informal entries in terms of the first four digits of the seven-digit commodity number. (Commodity descriptions in terms of the full seven-digit commodity classifications in Schedule A are not required to be supplied on informal entries. In view of this limitation, the greatest amount of commodity detail for informal entries, which could be provided in the Appendix, was in terms of the four-digit Schedule A commodity groupings.)

A rough estimate of the value of total imports on a commodity basis can be obtained by adding the estimated under $250 shipments plus allowance for sampling variability to the fully compiled over $250 shipments in accordance with the example given in the headnote to the Appendix. Caution should be used in adding to the data for any particular seven-digit classification the value of shipments on *informal* entries which is provided only in terms of the four-digit commodity grouping. It is not known if, all, part, or any, of the value of the informal entries represents shipments of any particular seven-digit commodity classification within the four-digit grouping. The user's own knowledge of the usual pattern of shipments on informal entries may enable him to make a rough approximation of the distribution among the detailed seven-digit classifications of the value of shipments on informal entries.

F. The Effect of the Change in Coverage and Procedure on the Comparability of the Statistics.

In any comparison of the data for 1954 and 1955 with the data for 1953 or any previous year, consideration should be given any change in coverage and in compiling procedures as described in the coverage statements and explanations which are an integral part of each report.

During 1954 and 1955 the over-all import totals have been increased by about $55 million and $63 million, respectively, by the inclusion of informal entry data. (The increase might, in fact, be smaller than indicated because of the possible shift from the use of formal entries for low-value shipments to the use of informal entries as a result of the value limit on informal entries being raised, effective September 1953, from $100 to $250.) This increase has been distributed and is included, as appropriate, in the commodity group and commodity subgroup totals. All three totals have been further affected by the fact that they now include estimates and are therefore subject to sampling variability.

Changes in coverage and compiling procedures reflected in recent calendar year issues of Report No. FT 110 are shown below:

Year	Coverage and procedure
1952 and prior years	Fully compiled formal entry items by seven-digit commodity numbers. Informal entry items (valued $100 or less) excluded.
1953:	
January-June	Fully compiled formal entry items by seven-digit commodity numbers. Informal entry items (valued $100 or less) excluded.
July-December	Fully compiled formal entry items valued $100 and over by seven-digit commodity numbers. Estimated dollar value of formal entry items valued at less than $100 included in the total for commodity group 9 "Miscellaneous" and excluded from subgroup and group totals as well as from the detailed commodity and commodity by country data. Informal entry items (valued $100 or less July and August and $250 or less September-December) excluded.
1954 and 1955	Fully compiled formal entry items valued $250 and over by seven-digit commodity numbers. Estimated dollar value of formal entry items $250 and under by seven-digit commodity numbers (shown in Appendix). Estimated dollar value of informal entry items ($250 and under) by first four digits of the seven-digit commodity numbers (shown in Appendix).

GENERAL EXPLANATION

COVERAGE

The import statistics include government as well as nongovernment shipments of merchandise from foreign countries to the United States. However, American goods returned by the United States armed forces for their own use are excluded. Shipments into the United States from its territories and possessions and shipments between the territories and possessions are not reported as United States imports, but imports into Alaska, Hawaii, and Puerto Rico from foreign countries are considered to be United States imports and are included in this report. Merchandise shipped through the United States in transit from one foreign country to another is not reported as imports. In general, the import statistics are a complete record of merchandise which moves into the United States from foreign countries (except for intransit shipments), but there are some exclusions of items of relatively small importance in terms of total value such as gifts valued at less than $100.

Imports for consumption shown in this report consist of merchandise entered into United States consumption channels, i.e., merchandise released from Customs custody immediately upon arrival, merchandise entered into bonded manufacturing warehouses (other than smelting and refining warehouse), merchandise withdrawn from bonded storage warehouse for release into domestic consumption channels, and imported ores and crude metals which have been processed in bonded smelting warehouse.

RELATED INFORMATION

Information is also compiled for general imports, which represent total arrivals of imported goods (except for intransit shipments), i.e., merchandise released from Customs custody immediately upon arrival, plus merchandise entered into bonded storage warehouse, bonded manufacturing warehouse, and bonded smelting and refining warehouse, immediately upon arrival. General import figures covering total trade, country totals and Customs district totals are published monthly. General import commodity statistics are not published but are available for reference purposes. Information on merchandise withdrawn from bonded storage warehouses for exportation (not included in either imports for consumption or general imports) is also available for reference purposes.

Trade between the United States and its territories and possessions (not included as United States imports) is presented separately in Report No. FT 800. Statistics on the movement of intransit merchandise arriving at or leaving the United States by vessel (not included in this report) are also compiled and presented in summary form in Report No. FT 985. In addition, transportation statistics (showing shipping weight as well as value information) are compiled covering that part of general imports of merchandise which arrives by vessel. Summary vessel transportation statistics for both imports and exports are presented in Report No. FT 985. A more complete description of the coverage and presentation of these separate shipping statistics will be found in the introduction to that report.

SOURCE OF INFORMATION

The source of information for all of the imports included in this report, is the import entry (various Customs forms), which importers are required to file with Collectors of Customs for each shipment arriving in the United States. Importers are instructed to report value and country of origin information in accordance with the definitions given below.

VALUATION

The values are in general based on market or selling price and are in general f.o.b. the exporting country. (Transportation costs to the United States may inadvertently be included in the case of merchandise which is not subject to an import duty based on value.) United States import duties are excluded.

COMMODITY INFORMATION

Commodity information is reported according to the classifications established in Schedule A, *Statistical Classification of Commodities Imported into the United States*, and is presented in the order of the numbered classifications in that Schedule. The Table of Contents on page 7 of this report indicates the range of Schedule A commodity numbers covering related subgroups of commodities and will assist in locating in the report the statistics for particular subgroups and commodities. For precise definition of the individual commodity classifications for which figures are presented, reference should be made to Schedule A. The commodity descriptions in this report are necessarily abbreviated to save printing costs and, therefore, in many cases, they do not contain all of the qualifying information necessary to define clearly the commodity for which statistics are shown. The omission of a Schedule A commodity classification from this report indicates no imports of that commodity valued at more than $250.

COUNTRY OF ORIGIN

The country of origin is defined as the country where the merchandise was grown, mined or manufactured. In the event the importer can not readily obtain information as to the country of origin for a shipment, it is credited, for statistical purposes, to the country of shipment. Where it is known that country is the country of shipment instead of origin, the country is footnoted in this report. In addition, countries reported by the importer and included in the statistics as country of origin may actually represent shipment instead of origin for merchandise which is transshipped before it reaches the United States. Countries are reported as defined in Schedule C, *Classification of Country Designations Used in Compiling the United States Foreign Trade Statistics*. Country names which are abbreviated in this report to save space are shown in full in Schedule C, together with descriptions of the countries, adjacent provinces, territories, islands, or other areas considered a part of the country for statistical purposes. Schedule C is published as a part of Schedule A (see "Commodity Information"). A separate edition of Schedule C is also available free upon request to the Bureau of the Census.

To save printing costs complete commodity by country of origin information is not shown in the monthly issues of this report. For each Schedule A commodity number separate country of origin information is shown only for countries from which imports during the period covered by the report were $10,000 or more. Imports of that commodity originating in countries from which the amount shipped was less than $10,000 are presented as a combined total without country of origin detail identified as "OTH CTY" (other countries), unless imports from no country amount to $10,000 or more. If imports of a commodity do not amount to $10,000 or more from any country, an asterisk is shown opposite the commodity total. Information on imports originating in countries from which the amount shipped was less than $10,000 can be supplied upon request. A charge may be made to cover the cost of preparing this detailed information.

Countries are listed for each commodity in this report according to continents, in sequence within each continent from north to south and west to east, in accordance with Schedule C. The omission of a country name indicates no imports of that commodity from that country or imports of less than $10,000.

REVISIONS TO PREVIOUS MONTHS' REPORTS

Significant revisions to data published in this report for earlier months of the current and previous year are shown at the back of the current month's report. With the exception of very important changes, any revisions to data for earlier years are held for reflection in the figures to be published in *Foreign Commerce and Navigation of the United States* for that year.

SOURCES OF FURTHER INFORMATION ABOUT IMPORT STATISTICS

A complete discussion of the compilation procedures and coverage for import statistics will be found in the Foreword to the latest edition of *Foreign Commerce and Navigation of the United States*. Copies of this publication available for reference at Public Libraries. Regular subscribers to FT reports are automatically supplied with copies of *Foreign Trade Statistics Notes*, a monthly publication containing information of value to users of foreign trade statistics (such as, changes in type of shipments covered by current statistics, unusual shipments, problems of valuation, classification, etc.). A catalog of *United States Foreign Trade Statistical Publications* is also available. Data in this report are available for reference purposes prior to the publication of the report or may be obtained in advance of publication on payment of the cost for a special report. Reports on a cost basis can also be arranged for to obtain additional detail compiled but not published. For free copies of the catalog or for further information regarding reference copies of tabulations or the availability of special reports, request should be made to the Bureau of the Census.

TABLE OF CONTENTS

Description	Schedule A Commodity Code No.	Page No.
GROUP 00 - ANIMALS AND ANIMAL PRODUCTS, EDIBLE		
Animals, edible (except for breeding)	0010600-0015500	7
Meat products	0018300-0035500	7
Animal oils and fats, edible	0036000-0036900	8
Dairy products	0037000-0046990	8
Fish and fish products, except shellfish	0047000-0079590	9
Shellfish and products	0080100-0087900	12
Other edible animal products	0088100-0097900	13
GROUP 0 - ANIMALS AND ANIMAL PRODUCTS, INEDIBLE		
Hides and skins, raw (except furs)	0201000-0299900	13
Leather	0300100-0345900	16
Leather, rawhide, and parchment manufactures	0350300-0699990	17
Furs and manufactures	0701000-0759900	22
Animal and fish oils, fats, and greases, inedible	0803000-0821600	24
Other inedible animals and animal products	0840000-0990290	24
GROUP 1 - VEGETABLE FOOD PRODUCTS AND BEVERAGES		
Grains and preparations	1020000-1090260	28
Fodders and feeds, n.e.s	1101000-1190800	29
Vegetables and preparations	1191100-1250990	29
Fruits and preparations	1290000-1330990	31
Nuts and preparations	1350000-1380140	33
Vegetable oils and fats, edible	1420000-1428900	34
Cocoa, coffee, and tea	1501300-1521000	34
Spices	1523100-1550590	35
Sugar and related products	1570000-1654800	36
Beverages	1711300-1900000	39
GROUP 2 - VEGETABLE PRODUCTS, INEDIBLE, EXCEPT FIBERS AND WOOD		
Rubber and allied gums and manufactures	2011000-2098900	39
Gums, resins, and balsams, n.e.s	2102000-2189400	40
Drugs, herbs, leaves, roots, etc	2201000-2220490	40
Oil seeds	2231000-2240700	42
Vegetable oils and vegetable waxes	2241000-2290590	42
Dyeing and tanning materials	2302000-2345950	44
Seeds, except oil seeds	2401000-2460990	45
Nursery and greenhouse stock	2501000-2599100	46
Tobacco and manufactures	2601000-2629900	46
Miscellaneous vegetable products	2800000-2960150	47
GROUP 3 - TEXTILE FIBERS AND MANUFACTURES		
Cotton unmanufactured	3001010-3005000	48
Cotton semimanufactures	3006150-3020999	48
Cotton manufactures	3030000-3230800	48
Jute and manufactures	3241000-3250900	53
Flax, hemp, and ramie, and manufactures	3261000-3390590	53
Other vegetable fibers and manufactures	3401000-3421990	56
Wool, unmanufactured	3501000-3541000	57
Wool semimanufactures	3550000-3574600	61
Wool manufactures	3607000-3680800	62
Hair and manufactures, n.e.s	3690000-3698900	67
Silk, unmanufactured	3702000-3704200	68
Silk manufactures	3705100-3799900	68
Manufactures of rayon or other Man-made (synthetic) textile	3800000-3880490	71
Miscellaneous textile products	3900300-3981100	73
GROUP 4 - WOOD AND PAPER		
Wood, unmanufactured	4007100-4080500	75
Sawmill products (lumber)	4103100-4207555	76
Wood manufactures	4208000-4280990	77
Cork and manufactures	4300000-4321900	79
Paper base stocks	4590000-4692900	80
Paper and manufactures	4711000-4799990	80
GROUP 5 - NONMETALLIC MINERALS		
Coal and related fuels	5001000-5014300	84
Petroleum and products	5052100-5079100	84
Stone, lime, cement, gypsum, and gypsum products	5080250-5193900	85
Glass and glass products	5200400-5290900	86
Clay and clay products	5300000-5390700	92
Other nonmetallic minerals and manufactures (except precious stones and imitations)	5391000-5930980	95
Precious and semiprecious stones and imitations and industrial diamonds	5950000-5958200	98
GROUP 6 - METALS AND MANUFACTURES, EXCEPT MACHINERY AND VEHICLES		
Iron ore and concentrates	6001000-6001100	99
Iron and steel semimanufactures	6002000-6060300	99
Steel mill products--manufactures	6081020-6116100	100
Iron and steel advanced manufactures	6117000-6200990	108
Ferro-alloys, ores, and metals, n.e.s	6211000-6270900	110
Nonferrous metals, except precious	6301000-6790990	111
Precious metals, jewelry, and plated ware	6820000-6900550	118
GROUP 7 - MACHINERY AND VEHICLES		
Electrical machinery and apparatus	7063200-7100990	120
Engines, turbines, and parts, n.e.s	7110000-7110700	122
Other machinery, except agricultural	7400200-7800990	123
Agricultural machinery and implements	7850000-7890190	126
Vehicles, except agricultural	7900100-7940290	127
GROUP 8 - CHEMICALS AND RELATED PRODUCTS		
Coal-tar products	8001000-8090900	128
Medicinal and pharmaceutical preparations	8102000-8150600	129
Industrial chemicals	8170040-8380982	130
Pigments, paints, and varnishes	8400100-8441300	134
Fertilizers and fertilizer materials	8500000-8559900	135
Explosives, fireworks, and ammunition	8620000-8695000	136
Soap and toilet preparations	8712300-8731200	136
GROUP 9 - MISCELLANEOUS

1/The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

aSampling error (see Explanation, page 3) is not greater than 5 to 10 percent. cSampling error (see Explanation, page 3) is not greater than 15 to 20 percent.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[b]Sampling error (see Explanation, page 5) is not greater than 10 to 15 percent.

[g]Sampling error (see Explanation, page 5) is not greater than $8,000 to $11,000.

1/The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

8/Sampling error (see Explanation, page 3) is not greater than $8,000 to $11,000. 3/Sampling error (see Explanation, page 3) is not greater than $20,000 to $30,000.

[1]The figures for this commodity, like other commodities, are known not to be comperable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[e]Sampling error (see Explanation, page 3) is not greater than $4,000 to $6,000.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

*Sampling error (see Explanation, page 5) is not greater than 5 to 10 percent.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[a]Sampling error (see Explanation, page 3) is not greater than 5 to 10 percent.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[b]Sampling error (see Explanation, page 3) is not greater than 10 to 15 percent. [8]Sampling error (see Explanation, page 3) is not greater $8,000 to $11,000.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

CALENDAR YEAR 1955

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[2]Country of Shipment - (Country of Origin Unknown) [c]Sampling error (see Explanation, page 3) is not greater than 15 to 20 percent.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the affect on this particular commodity in 1955.

[a]Sampling error (see Explanation, page 3) is not greater than 5 to 10 percent.

[1]The figures for this commodity, like other commodities, are known not to be compareble with figures for yeers prior to 1954 because of certain changes in import procedures for shipments velued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particuiar commodity in 1955.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

1/The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

§Sampling error (see Explanation, page 5) is not greater than $8,000 to $11,000.

[1] The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[a] Sampling error (see Explanation, page 3) is not greater than 5 to 10 percent. [b] Sampling error (see Explanation, page 3) is not greater than 10 to 15 percent.

1The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

gSampling error (see Explanation, page 5) is not greater than $8,000 to $11,000.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[J]Sampling error (see Explanation, page 3) is not greater than $20,000 to $30,000.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

@Sampling error (see Explanation, page 3) is not greater than 5 to 10 percent.

1/ The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

[1]The figures for this commodity, like other commoditias, ere known not to be comparable with figures for years prior to 1954 becausa of certain changas in import proceduras for shipments valued $250 or lass resulting from the Customs Simplification Act of 1953. See tha Appendix at tha and of this raport for an indication of tha effact on this particular commodity in 1955.

[2]Country of Shipment = (Country of Origin Unknown) [a]Sampling error (sae Explanation, page 3) is not greatar than 5 to 10 percent.

[1]The figures for this commodity, like other commodities, are known not to be compareble with figures for yeers prior to 1954 because of certein chenges in import procedures for shipments velued $250 or less resulting from the Customs Simplificetion Act of 1953. See the Appendix et the end of this report for an indicetion of the effect on this perticuler commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the affect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955. [2]Country of Shipment (Country of Origin Unknown). [3]Classification errors may exist in the distinction between imports classified under Schedule A commodity numbers 527822D, 527839D, 527862D and 527879D. (See "Imports of Blown Glassware" January 1953 issue of Foreign Trade Statistics Notes). [4]Classification errors may exist in the distinction between imports classified under Schedule A commodity number 5278250 and 5278650. (See "Imports of Blown Glassware" January 1953 issue of Foreign Trade Statistics Notes)

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for yeers prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[a]Sampling error (see Explanation, page 5) is not greater than 5 to 10 percent.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION

CALENDAR YEAR 1955

[1] The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.
[b]Sampling error (see Explanation, page 3) is not greater than 10 to 15 percent. [2]Country of Shipment - (Country of Origin Unknown).

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the affect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the affect on this particular commodity in 1955.

[2]Country of Shipment - (Country of Origin Unknown) [a]Sampling error (see Explanation, page 3) is not greater than 5 to 10 percent.

[1]The figures for this commodity, like other commodities, are known not to be compereble with figures for yeers prior to 1954 because of certain chenges in import procedures for shipments velued $250 or less resulting from the Customs Simplificetion Act of 1953. See the Appendix et the end of this report for an indicetion of the effect on this perticuler commodity in 1955.

[b]Sampling error (see Explanation, page 3) is not greater than 10 to 15 percent.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[a]Sampling error (see Explanation, page 3) is not greater than 5 to 10 percent.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

1/The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

cSampling error (see Explanation, page 3) is not greater than 15 to 20 percent.

1/The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

eSampling error (see Explanation, page 3) is not greater than 5 to 10 percent. gSampling error (see Explanation, page 3) is not greater than $8,000 to $11,000.

1/The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

aSampling error (see Explanation, page 5) is not greater than 5 to 10 percent.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[1]The figures for this commodity, like other commodities, are known not to be comparable with figures for years prior to 1954 because of certain changes in import procedures for shipments valued $250 or less resulting from the Customs Simplification Act of 1953. See the Appendix at the end of this report for an indication of the effect on this particular commodity in 1955.

[a]Sampling error (see Explanation, page 3) is not greater than 5 to 10 percent.

APPENDIX A

U. S. IMPORTS OF MERCHANDISE FOR CONSUMPTION, BY COMMODITY SUBGROUP; VALUE FOR THE FULLY COMPILED OVER $250 FORMAL ENTRY SHIPMENTS THE ESTIMATED VALUE OF $1 TO $250 SHIPMENTS FOR FORMAL AND FOR INFORMAL ENTRIES CALENDAR YEAR 1955

The data presented in thie appendix eupplement the calendar year 1955 subgroup statistics in the body of Report FT 110. The estimated values for $1-$250 ehipmente which are shown eeparately for formal and informal entries, are compiled from a 5 percent sample of each shipments multiplied by 20, and when combined represent the subgroup figures deeignated ae "SAMPLE" in Report FT 110.

Thaee data arc intended to provide the ueer of the import statietics with a rough measure of the change in coverage of the import statistice, on a commodity eubgroup basis, as a result of the inclusion of informal entriee in the import statistice beginning January 1954. (Prior to 1954 informal entriee were excluded from the statietice. As a reeult of the Cuetoms Simplification Act of 1953 which raieed the value limit on informal entries from $100-$250 effective September 1953, informal entriae were included in the statietics beginning January 1954.) Only a rough meaeure of the effect of the change in coverage ie possible, however, eince (1) no analysie can be made of the shift, if any, from the use of formal entriee for low value shipments to the use of informal entriae ae a result of the Cuetoms Simplification Act of 1953, and (2) The estimated values are eubject to eampling variability.

In addition, in any comparison of the data with the statistics for 1953 the inclusion of the entire estimated amounts for formal entry import items valued at $250 or less in the commodity subgroup and the commodity group totale in which they belong, effective January 1954, may effect, to a relatively minor extent, thc comparability of these totale with corresponding totale for the period July through December 1953. During the period July through December 1953 estimatee of formal entry iteme valued at lees than $100 were included in the total for commodity group 9 "Miscellaneoue" and were excluded from the subgroup and group totals.

On the basis of measures which indicate the degree of reliability to be attached to a specific value on a two-chances-out-of-three basie meet of the over-all (i.e., the over $250 data plus the $1-$250 figuree for formal and informal entries) eubgroup figuree which can be derived have a limit of eampling variability of not greater than 5 percent. The variability of the eetimated values for the $1-$250 shipmente alone, however, is generally greater than 5 percent. The eampling variability of any value in thie appendix comprieed eolely of $1-$250 estimated valuea can generally be approximated on the basie of the magnitude of the value iteelf. Where the value is leee than $25,000 the variability is in general between $5,000 and $10,000. If the value ie between $25,000 and $75,000 the variability is in general between $10,000 and $16,000. If the valuc is between $75,000 and $125.000 the veriability is in general between $16,000 and $22,000. If the value is between $125,000 and $200,000 the variability is in general between $22,000 and $34,000. If the value is between $200,000 and $500,000 the variability is in general between $26,000 and $43,000. The variability of valuee of $500,000 and over is generally lees than 7 percent. If a fully compiled figure ie added to an estimated $1-$250 figure, the absolute eampling variability of the sum is the eame as the abeolute eampling variability of the eetimated figure above.

For example, in the case of the subgroup data for meat producte, the variability of the $914,360 estimated for $1-$250 formal entry shipments would be less than 7 percent. The variability of the $134,080 eetimated for $1-$250 informal entry shipmente would be between $22,000 and $34,000. The variability of the derived figure of $1,048,440 ($914,360 plue $134,080) for the total eetimated value for $1-$250 shipmente would be less than 7 percent, while the over-all derived value of $162,656,103 ($161,607,663 plus $914,360 plue $134,080) for imports of all meat producte would be considerably less than 1 percent.

A more detailed discuesion of the eampling procedure and the change in coverage ie presented in the "Explanation" beginning on page 3

[2]Classification established for informal entry importations not classifiable in terms of commodity subgroup detail. See April 1955 issue of the Notes.

APPENDIX B

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION BY SEVEN-DIGIT SCHEDULE A COMMODITY FOR COMMODITIES FOR WHICH THERE WERE $1 - $250 FORMAL ENTRY SHIPMENTS IN THE SAMPLE AND BY FOUR-DIGIT SCHEDULE A COMMODITY GROUPING FOR ALL OTHER CLASSIFICATIONS CALENDAR YEAR 1955

The date presented by commodity in this Appendix for shipments valued $1 - $250, supplement the detailed commodity statistics in Report FT 110 from which the $1 - $250 shipments are excluded. These data are estimated values and represent the compiled value for the 5 percent sample of the $1 - $250 shipments multiplied by 20. The values are shown separately for formal and informal entries. Prior to 1954 informal entries were excluded from the statistics. As a result of the Customs Simplification Act of 1953 which raised the value limit on informal entries from $100 to $250 effective September 1953, informal entries were included in the statistics beginning January 1954. A more detailed discussion of the sampling procedure and the change in coverage is presented in the "Explanation" beginning on page 3 .

The data shown in this Appendix are intended to provide the user of the import statistics with a rough measure of the undercounting in the detailed commodity statistics for 1954 as a result of the exclusion of the $1 - $250 shipments from the import statistics. Only a rough measure of the undercounting is possible for any detailed commodity classification, however, since (1) the estimated value for $1 - $250 shipments reported on informal entries is shown only in terms of four-digit commodity groupings and not in terms of seven-digit commodity detail, and (2) all estimated values are subject to sampling variability. (The estimated value for informal entries is shown only in terms of the broader four-digit commodity classifications since the more detailed seven-digit Schedule A commodity descriptions are not required to be supplied, and are often not shown, on informal entries).

On the basis of measures which indicate the degree of reliability to be attached to a specified value on a two-chances-out-of-three basis the sampling variability of any value in this Appendix comprised solely of $1 - $250 estimated values can be approximated on the basis of the value itself. Where the value is less than $5,000 the variability is in general between $4,000 and $6,000. If the value is between $5,000 and $20,000 the variability is in general between $5,000 and $10,000. If the value is between $20,000 and $100,000 the variability is in general between $10,000 and $20,000. If the value is between $100,000 and $500,000 the variability is in general between $20,000 and $40,000. The variability of values of $500,000 and over is generally less than 7 percent. If a fully compiled figure is added to an estimated $1 - $250 figure, the absolute sampling variability of the sum is the same as the absolute sampling variability of the estimated figure alone.

A rough estimate of the value of total imports on a commodity basis can be obtained by adding the under $250 shipments plus allowance for sampling variability to the fully compiled over $250 shipments in accordance with the example given below. Caution should be used in adding to the data for any particular seven-digit classification the value of shipments on informal entries which is provided only in terms of the four-digit commodity grouping. It is not known if all, part, or any, of the value of the informal entries represents shipments of any particular seven-digit commodity classification within the four-digit grouping. The user's own knowledge of the usual pattern of shipments on informal entries may enable him to make a rough approximation of the distribution among the detailed seven-digit classifications of the value of shipments on informal entries.

Example: (1) Total imports of commodity 0010 800 may be estimated as follow: - The estimated value of $34,700 for formal entry $1 - $250 shipments plus all, or a part (if any) of informal entry shipments estimated at $2,700 (based on the user's knowledge of the importing pattern). If it is assumed that informal entry importations are distributed among the seven-digit classifications within the four-digit grouping as are the formal $1 - $250 entries then $34,700 plus approximately $1,000 (assumed informal shipments) equals about $36,000 estimated total formal and informal entry shipments. With allowance for sampling variability of about $10,000 it might be assumed that estimated $1 - $250 formal and informal shipments of commodity 0010 800 would not be greater than about $46,000 or less than $26,000 and that the total imports of commodity 0010 800 would probably not be greater than about $3,960,000 or less than $3,940,000.

(2) Commodity 0023 800 is not listed separately but is included in the four-digit grouping "other 0023" because there were no formal entry $1 - $250 shipments in the sample for this commodity. By reference to Report FT 110 it is determined that imports of 0023 800 in shipments of over $250 amounted to $1,095,777. Since there were no $1 - $250 formal entry shipments included in the sample for Commodity 0023 800 shipments valued $1 - $250 for this commodity probably were not greater than $2,000. However, if it can be assumed that formal entry shipments valued $1 - $250 are generally not made for 0023 800 and that the pattern is the same for informal entries, then it can be assumed that imports of 0023 800 did not amount to more than $1,097,777.

In any use of the 1955 data in this Appendix for purposes of comparison with the statistics for years prior to 1954 attention is called not only to the inclusion of informal entries in the statistics beginning January 1954 but also to the fact that (1) no analysis can be made of the shift, if any, from the use of formal entries as a result of the Customs Simplification Act of 1953, and (2) during July-December 1953 formal entry shipments valued at less than $100 were excluded from the detailed commodity statistics.

UNITED STATES IMPORTS OF MERCHANDISE FOR CONSUMPTION--SAMPLE COMMODITY DATA: CALENDAR YEAR 1955

*No estimate for $1-$250 shipments is shown, because no item appeared in the sample. Statistical measures indicate that the resulting undercounting may be as much as $2,000. However, for commodities not ordinarily imported in shipments valued $1-$250, the figures in the table may be accepted as substantially correct, since in these cases the absence of any $1-$250 shipments in the sample may mean that no such shipments were made.

[1]The data shown are only for those informal entries which contained commodity descriptions detailed enough to permit presentation of the data by four-digit classifications. Excluded are those informal entries on which the description of the merchandise was not specific enough to permit presentation of the data except in terms of (1) commodity subgroup (i.e., groupings of four-digit classifications), or (2) an arbitrary catch-all classification ("other 1-250 dollar items") which has been set up as a separate commodity subgroup. Data for each of these two "types" of informal entries are shown below by commodity subgroup. Reference to Appendix A in which they are included will provide information on all the seven-digit commodity classifications which are included in a commodity subgroup.

	Commodity subgroup number and description	Value (dollars)		Commodity subgroup number and description	Value (dollars)		Commodity subgroup number and description	Value (dollars)
	Total	2,747,580						
05	Fish and fish products, except shellfish	43,480	45	Manufactures of rayon or other man-made (synthetic) textile	700	73	Electrical machinery and apparatus	1,160
09	Leather	4,940	46	Miscellaneous textile products	10,580	74	Engines, turbines, and parts n.e.s	8,620
10	Leather, rawhide, and parchment manufactures	884,580				75	Other machinery, except agricultural	41,380
11	Furs and manufactures	11,400	47	Wood, unmanufactured	13,760	76	Agricultural machinery and implements	4,740
13	Other inedible animals and animal products	240	48	Sawmill products	7,060	78	Coal-tar products	2,860
